- Education

- primary and secondary education at jamkhandi in karnataka from Parshuram Bhaurao high school, a school more than 100yrs old and known for inculcating best human values among its students.
- Pre professional education – B.H.S arts and T.G.P science college – jamkhandi – secured a seat in medical college in a state level competitive examination under general merit in 1986.
- Professional education
  - M.B.B.S – passed out from Jawaharlal Nehru medical college, belgaum, affiliated to Karnataka university, Dharwar, known as one of the toughest M.B.B.S examinations in the country, in 1991.
  - Diplomate of National Board (D.N.B) (anaesthesiology) – training under eminent teachers at B.M Hospital mysore, for three years preparatory for D.N.B examination. Presented 2 national level papers and a dissertation. Passed the D.N.B examination conducted by National Board of Examination in the first attempt, a board established by govt. Of India to bring medical education to international standards, an examination known to be par with various international universities and having a tough reputation of being a very standard examination and a very low passing percentage.

- Work experience -

- post M.B.B.S – worked in various capacities (casualty medical officer, resident doctor and as sole medical officer in some remote establishments) between 1992 and 1995 at

various well known hospitals in Mumbai, bangalore and mysore. Developed an interest towards emergency medicine, intensive care and advanced life support measures in health care during this period. Took up 'anaesthesiology and intensive care' for post-graduate education as a result of this interest.

- Post D.N.B –
  - worked as a registrar in intensive care in B.M.Hospital mysore and acquired proficiency in the methods of advanced life support in intensive care.
  - Worked as consultant anesthesiologist and intensivist at various private nursing homes and hospitals at hubli, karnataka.
  - Worked as 'in-charge' intensivist at the intensive care unit at Karnatak Institute of Medical Sciences, Hubli for two years and was instrumental in improving the outcome of care at this institute and reducing the mortality rate by 40% in 2 years time.
- Achievements and activities -
  - Recognised the need for advanced intensive care facilities and improved health care in north karnataka and saw a potential for a world class centre and envisioned the same. Planned a superspeciality intensive care unit at hubballi, along with like minded intensivists and started lifeline 24x7, a state of the art intensive care unit and hospital at hubli.  
Functioning as managing director of 'logicare health solutions pvt.ltd' and intensivist at its state of the art facility 'lifeline 24x7'.
  - Playing a vital role in running the facility successfully to achieve the goals of providing world class, personalized high level medical care to the patients of north karnataka, along with generation of quality employment and wealth creation.  
Planning and executing the growth plans of the company and working towards making it a world class facility.
